

# Dock 29

**AN E-PUBLICATION OF DISTRICT 29**

**District 29 United States Power Squadrons Winter 2019**

**Columbus—Findlay—Fort Wayne - Lima - Port Clinton - Sandusky - Toledo**

**Attention all district and squadron officers**

**Past commanders and incoming officers.**

**The Winter Council at Ada has a date change.**

**Ada couldn't fit our event in on February 10<sup>th</sup>**

**So, it has been changed to February 3<sup>rd</sup>.**

**More information to come.**

**You're to register by January 25<sup>th</sup> or before.**

**Registration for this event has normally been slow, so**

**PLEASE if you know you're coming register early.**

**Call or email District Treasurer, Dick Manter, AP to register.**

**Phone – 260-444-3201 or email at dickmanter@aol.com.**

**Thanks, D/C Pam Yarletts**

UNITED STATES POWER SQUADRONS  
DISTRICT 29

CALL TO THE WINTER COUNCIL MEETING 2019

**TO: District 29 Council Members: District 29 Bridge officers, the Immediate Past District Commander, the Chairmen of the General Committees, Squadron Commanders and Squadron Delegates-at-Large.**

**AND TO: All D-29 Past Commanders and Chairmen of Standing Committees**

**FROM: D/Lt/C Shaon Manter, AP, Secretary**

**DATE: 06, January 2019**

**Please be advised that the District 29 Winter Council Meeting will be Held at the McIntosh Center, Ohio Northern University, Ada, Ohio at 0900 to 1500 on 03 February 2019.**

**Squadron Commanders please note:** Council Meeting Delegate Form has been included with this mailing. Please list your Squadron Council Delegate-at-Large and if necessary, any replacement for the Commander. Copies of the Delegate form must be hand delivered by 1100 on 03 February to the District Secretary. Also please bring your 2019 Squadron Calendars to share and make up yearly calendar for all District 29 Squadrons.

**Uniform of the day:** Polo shirt, can be Americas Boating Club, or any USPS shirt or any appropriate shirt, dress slacks or nice jeans.

**To All:** A copy of the Summer Council Meeting minutes is included with this transmission (mailing) and extra copies will be available at the Council meeting.

**Registration:** There will be a lunch of **Swiss steak, fresh fruit cup, market fresh salad, whipped potato, sauted green beans, peach & cherry cobbler with ice cream, and coffee or hot/cold tea**, served on site in the McIntosh dining hall. For those attending the lunch, cost will be **\$17.00**. Please pre-register with the District Treasurer by **Friday, January 25, 2019**. There is no need to register to attend if lunch is not required. To register for lunch please contact:

**D/Lt/C Dick Manter, AP**

**Phone: 260-444-3201 or**

**E-Mail dickmanter@aol.com**

**Schedule for the day:** (all times approximate)

0815-0900 Registration/Lunch fee collection – Complimentary coffee/tea donut

0900-1030 Department meeting and training for all incoming bridge members

1045-1130 Calendars

1145-1245 Lunch

**1300-1500 Council Meeting**

### **District Commander Pam Yaretts, AP**

Winter Council in Fort Wayne, In. was great. We had three National reps there and had some good break out sections. I believe everyone had a good time. Since the conference it has been more set in my mind that we are “America’s Boating Club” and we are all here to help each other out.

All the Squadron Christmas Parties are done, and I’ve attended all of them. Thank goodness for good weather. I hope it holds out for January and February.

February 3<sup>rd</sup> is Winter Council and I hope all squadrons and their bridge participate in the event. We will be going over squadron bridge responsibilities and the squadron upcoming events for 2019. Please have dates and a calendar ready.

The National meeting is coming soon, and I'll be seeing some of you there.  
February 17-23<sup>rd</sup>

**I'm making some dress code changes with the next few meetings. So if anyone has any positive or negative ideas please let me know.**

**The dress code for Winter Council will be USPS logo shirts – (local, district or national) and khaki pants or jeans. Also, any America's Boating Club shirts.**

### **District Education Officer - D/Lt/C Mark Dahlmann, SN**

As I was contemplating topics to write for this issue of the Dock 29, I received an email from national about the filing of the ED-80 form regarding the reporting and approval of the Squadron Educational Officer and Assistant Squadron Educational Officer. The old-old method was to fill in a form by hand, send it to the District Educational Officer via mail (pre-email) for approval. The DEO would then send it on via mail to national. Then, we had the more recent method which allowed a fillable pdf to be downloaded and emailed to the DEO. The DEO would *print the form, sign it, and then email it to national. Even though it was easier, some squadrons would not file it, thinking that since SEO is normally a three-year term, it was not a change to be reported. Now, national is requiring the ED-80 form to be filed each year. But, along with the requirement, they had the forethought to make it really easy. Just go to the USPS web site, select Site Index and click on Forms. The user will be asked for their user name and password. At that point, the user will be advised whether they have the authorization to proceed. It is a form that only requires clicking on the appropriate fields. If the SEO and/or ASEA is continuing, just click on the arrow to move the name over. If there is a change, just enter the nominee's certificate number and click the arrow. After the form is completed, click submit. It is automatically emailed to the DEO for approval. As Sandusky Commander, and District 29 DEO, I was able to see the process through from start to end. I think the whole process, Commander to DEO to National to final approval took maybe 5 minutes! It is very intuitive with several buttons such as Learn More (instructions for filling the form), and Locate (getting information on a member).*

Apologies, as the above description is probably more detailed than necessary, but I wanted to make a point. *USPS, Americas Boating Club*, is making a concerted effort to change with the times. I could go on and on about the information made available on the USPS web site, but I'll save you from that for now. Instead, I'd rather encourage you to take the time to navigate through the site and see the great things that are available!

As per the request from D/C Yarletts, the Education Department will be meeting at Winter Council to review and discuss the job description and expectations of the Squadron Educational Officers and Assistant Educational Officers. Of course, we'll spend some time discussing educational updates. One topic of discussion will be on how we can use our courses to meet the goal of making the water a safer place through boating education AND how we can entice our students to become a part of what we do.

**I am looking forward to our time together at Winter Council. If you have any questions, comments, or suggestions, please call or email me.**

### **District Executive Officer. . .D/Lt/C Felicia Evans, AP**

Just the other day, I went to sleep in 2018 and woke up in 2019. . . How did this happen? Where did 2018 go?

As I reflect on 2018, I try to take what I've learned from being a USPS member from the previous year and *move it forward* to the next year. I ask myself, did our squadron grow, did we gain new members, how did we obtain those new members, did we teach enough Safe Boating Classes, was I a good squadron member by giving time to help my squadron, and did I help make a difference in the life of a fellow boater? I could go on and on about what works for squadron membership involvement and retention, but I encourage you to read the short article in the Winter 2019 issue of the *The Ensign* on page 7, "How to grow a squadron: Have a membership plan." Take pride in your squadron if you are doing some of the same things mentioned in the article. However, if you are

not, then you have some great ideas on how to build your squadron and retain your membership.

**D29 ROSTER:** A big THANK YOU to P/D/C William C Hall and his first mate Patricia Hall for the many years that they were at the helm putting together and distributing the D29 Roster. The D29 Roster 2019-2020 will be edited by Stf/C Larry Cole and is being developed as I write this article. Stf/C Cole is asking that all new squadron commanders get their squadron assignments for 2019 to Larry Cole as soon as you know those assignments. Also, for all squadron members, please verify that your membership information is correct in DB2000. You can go into the [USPS.org](http://USPS.org) website and update your member profile. I have had to do this myself with the elimination of our landline. Please note, that Stf/C Cole will be using the DB200 data source for compiling member information in the D29 roster. Please call Stf/C Larry Cole 734-755-7252 with any questions.

***Where to go for a fun time in March? If you are looking for a flip-flopping time with fellow D29 members, then you need to be at the Maumee Bay Conference and Resort Center on March 15-17. Toledo Sail and Power Squadron will be hosting this year's D29 Spring Conference. Please see the flier for additional information. Reservation deadline is February 15.***

**Calling all boaters and landlubbers:** Join us for the first annual Summer 2019 D29 Cruise out. We plan to cruise out to 4 ports of call. Starting at Middle Bass island, June 28-30, then traveling by boat or car to Lorain/Spitzer Marina, for the dates July 1-2. We'll then be moving to Vermillion Public Docks, July 3-4 and finally completing our adventure on July 5 for a July 4th celebration at Huron Boat Basin, staying July 5-7. You can join us for the whole trip or come at the beginning and/or come towards the end. We have had some expressing an interest in coming by car. Please let Felicia Evans (419-304-2391) know if you plan to come by car so that we can begin to make hotel/motel arrangements. There will be a signup sheet for D29 members at Winter Council and D29 Spring Conference.

***Happy New Year! I look forward to seeing you at D29 events throughout the year.***

## **District Administrative Officer – D/Lt/C Jason Snook, SN-CN**

As I write this article, another year has come and gone. And another year to focus on all the things we couldn't do the year before or plan some new things for this year. Either way, may everyone have a healthy and happy 2019. It is also that time of year for Squadron Change of Watches. Be sure to check the upcoming dates for COWs in all the squadrons in our district so you can attend them. They are fun to attend and it's always good to see friends from other squadrons. Also upcoming is the annual Winter Council meeting in Ada, OH on Sunday Feb 3. Every bridge officer is encouraged to attend to find out what is expected of them and their duties to be carried out for the coming year. We also get together and plan out dates for every Squadron event happening in the year to come. It is followed by a delicious meal for lunch and meeting to discuss business in the district.

I will be attending the annual meeting in Orlando, FL which is Feb 20-24. This is an excellent time to meet with people all over the country and get information on what is happening at the national level so we can deliver that information to people at district and Squadron levels. And after that a good group of 18-20 people from District 29 will be going on a 10 day southern caribbean cruise! After all the fun is over, we will be focusing on the Spring Conference at Maumee Bay Resort March 15-17. I encourage everyone to attend and that includes people who have never been to a district conference. We are always looking for first timers to experience the fun we have at each and every Conference. After that in a month or so, people will be getting ready to get their boats ready for another fun filled Summer of rendezvous. Especially the Summer D29 rendezvous where we will be visiting many ports of Lake Erie from June 28-July 7. This is your Administrative officer signing off until the next issue.

**Best wishes for 2019, Jason**

## **Squadron Commander Reports**

### **Columbus Sail and Power Squadron – Commander Edward Mack, SN**

As we look forward to the next boating year, I say “Happy New Year!” In addition to our New Year’s resolutions, lists of things to accomplish, family and friends to reconnect with, we will be planning for the upcoming boating season. We are in the depth of winter, but there is a bright side: the days are getting longer! Keep that in mind when your boat is covered with a foot of snow.

In preparing for boating season, the questions are: Will my boat start? Are the batteries dead? What will I find broken? After getting the answers to all of the questions, the fun starts with planning excursions and picking which rendezvous to attend.

In about a month, my year as Commander comes to an end. I have thoroughly enjoyed my tenure and I want to thank everyone for working to make our squadron successful. Without our members, we would not have been able to offer elective and advanced courses, two ABC classes, boat shows, teaching the Navy ROTC students, maintaining and cleaning headquarters, and much, much more. Programs such as this take a lot of time and endurance. Kudos to those participating!

We have a great slate of officers coming on board. Dick Sorensen, SN, has been doing a bang up job with the Navy ROTC, shows, and all around squadron support. Best wishes to Dick and all the others leading the team.

I look forward to seeing you all in the future.

### **Findlay Sail and Power Squadron – Commander Tom Streacker, P**

I have been Commander in Findlay now for two years. Like many squadrons, we face membership problems. We have tried a number of things to increase awareness of our organization to the surrounding community but have not found any new members. Due to age and changing interests, our membership has dwindled dramatically. The future is uncertain but we will carry on.

In my fifth year with Findlay, my responsibilities are to my family and company and they require more time than I possibly can give to this organization at this time. Many people have confided in me by telling me similar things and adding new membership remains our #1 priority. We attempted to merge activities with Lima in 2018 and that effort had limited success from members of both squadrons.

I don't mean to sound pessimistic, however, this is the reality that faces us. My wife Joanne and I have enjoyed meeting everyone on the district level over the past 3+ years of attending conferences and council meetings. Two years have passed rather quickly and I cannot help but feel discouraged by our efforts to increase membership. Members of the Findlay Sail & Power Squadron remain among our closest of friends. Their time and effort in helping us learn about the Power Squadron was invaluable. I wish you all the best in this new year.

#### **Fort Wayne Sail and Power Squadron – Commander Richard Manter, AP**

Our squadron was focused a big part of the year on our Fall District Conference that we hosted here in Fort Wayne in November. We are a small squadron but all of our members participated in various ways to see that we had a successful conference and my thanks go out to all of them. We got a big surprise when we found out that Craig Fraser, our National Education Officer was going to be our guest and then also, Mary Paige Abbott, National Executive Officer and Myles Gee, Chairman of the Squadron Development Committee. They presented their vision to our district of each squadron joining with each of the other squadrons throughout the year to accomplish our various classes and/or activities. We thank all of those who have volunteered to help man our booth at our Fort Wayne Boat Show February 14-17. It is a new year and we look forward to what 2019 will bring for the America's Boating Club in District 29.

## **Lima Power Squadron – Commander Brad Barton, SN**

Lima had a solid 2018. P/C Jim Michael SN had 117 VSC's, I think, and the squadron did 165. We had better than a dozen earn merit marks, and best of all some veterans have stepped forward to keep the squadron viable for several years, at least.

But the coolest thing I've seen lately was in the Winter 2019 Ensign. In just two pages we learn that the US Navy has reinstated celestial navigation training, and that some of our Columbus members trained students at OSU NROTC. An excerpt from my recent newsletter piece:

“Inspiration. Look on page 28 of the new, Winter 2019 Ensign. It's the one we just received with the antique sextant on the cover. On page 28 is an article written by a D29 member, Dick Sorensen, from the Columbus squadron. It seems the US Navy is reintroducing the teaching of celestial navigation to its recruits. On hearing this Mr. Sorensen got with his Columbus squadron friends and contacts at the Ohio State University Naval ROTC program, and arranged for training sessions for the OSU students to get schooling in celestial navigation from the Columbus squadron folks. How cool is that?

This is inspirational in several ways. First, the Navy realized that even their sophisticated electronics can fail, or get hacked, and a manual backup is still the best policy, which was our position all along. Secondly, that our D29 people offered a hand to the OSU program, and worked together to make it so. Also, Mr. Sorensen gets credit for seeing and acting on the opportunity, then for putting the words down so well (as he always does,) to tell the story to the rest of the squadron – nationally, now that the article is in the Ensign. As you may guess, I like to write. But Mr. Sorensen has an audience, and without fail makes his points well, and with class, to a standard I look up to. We can all gain inspiration from what he and the Columbus squadron are now doing in this case, and surely will be in the future. Hats off! Well done.”

Plans for 2019 are forming, and new leadership in Lima will no doubt make it a good one. Maybe Neet and I will get out on Lake Erie and do a star fix. There's a worthy goal.

### **Port Clinton – Commander Dennis Timple, AP**

Port Clinton Power Squadron will hold its Change of Watch January 19 to start our 2019 campaign to reduce boating fatalities and grow America's Boating Club. Membership has stayed even with the death of one of our members and the transfer in of a member so far. Our Public Boating Course starts this month and we expect 20 students attending. Vessel Safety Checks have begun as our snowbirds reach out to boaters to have their boats inspected. SEO and our Membership Chair are contacting members for a Boat Handling Course and to inquire about other course requests. Our Christmas event with Sandusky Power Squadron garnered 40 participants at Catawba Island Club. Lack of cold weather has resulted in several foolish fishermen taking boats out on Lake Erie. The Coast Guard Station Marblehead is manned but the 44 footers will not be launched until Spring. Stay safe and warm as we wait out the arrival of Spring.

### **Sandusky – Commander Mark Dahlmann, SN**

Sandusky Power Squadron hopes that you had a wonderful Christmas and a great start to the New Year.

Our combined Sandusky Power Squadron/Port Clinton Power Squadron Christmas party was very enjoyable. I was impressed with the large number of our squadron members in attendance. The food at CIC was excellent and the entertainment, "Touch of Class", from Port Clinton High School, was outstanding. The A Capella group sang a variety of holiday songs with a twist, using vocal and body percussion. Thanks to Commander Timple and PCPS for hosting.

At the Fall Conference in Fort Wayne, I was honored to accept an award for member Paul Ruthsatz, P, for 50 years of membership. Congratulations Paul!

P/C Brent Gardner just finished teaching a Weather class and we should have test results soon. We are still planning to have an Advanced Piloting class in January. If you are interested, contact Lt/C Jim Platte or P/C Brent Gardner. P/D/C Jack Runner and his crew will be starting an ABC class March 27th. Spread the word - if you know of anyone interested, have them contact Jack.

We are looking forward to the Spring Conference at Maumee State Park, hosted by Toledo Power Squadron. Toledo Power Squadron member, D/Lt/C Felicia Evans, AP, will become District Commander and it promises to be a good time, as she has already designated a *"Flip Flop into Spring"* uniform for Friday night.

The Sandusky Power Squadron Change of Watch will be held Saturday, February 2nd, at Sandusky Yacht Club. We had a great turnout last year and I am hoping to increase that number this year. Information has been sent to each squadron and may also be found in the January issue of our newsletter, *The Lookout*. (posted on our web site: [www.sanduskypowersquadron.com](http://www.sanduskypowersquadron.com)) See you at Winter Council.

## **Toledo – Commander Fred Zibbel, AP**

The Toledo Sail and Power Squadron has sworn in the 2019 Bridge and we have been working hard to make this year fun filled, safe, exciting and educational.

In the months of February and March, SEO Lt/C Nelson Evans, AP will be presenting the ABC Course 4 times, two classes in Toledo, one at Monroe County Community College and one at the Perrysburg Township Fire Department.

Navigation class is underway with three students chasing the stars, planets and moon with their sextants, completing their sight folders. Advanced Piloting, Seamanship and Cruise Planning are also being scheduled.

2019 will be a great year for the Toledo Squadron as events, cruises and rendezvous are currently being planned by committees.

2018 saw two Toledo members receive their 50 year Membership Awards. Mike Schabec, AP (47 merit marks) and P/C Ron Trzcinski (25 merit marks). P/C Leonard

Buck, JN-IN completed the requirements for BOC Inland Navigator (IN) and two members are signed up to complete IN Passports and two signed up to complete Coastal Navigator (CN) On-The-Water Training.

**Summer Council  
July 13-15, 2018  
Sandusky Yacht Club**

The meeting was called to order at 1:00 pm. The Pledge of Allegiance was led by D/Lt/C Felicia Evans and the Invocation was given by D/Lt Sue DuBray.

Roll call was taken by the Secretary and it was reported that we do have a quorum.

**District Commander Yarletts** welcomed all to the Summer Council. She highlighted events coming up this summer encouraged each of the squadrons to get involved with other squadron activities listed in the front of the District Roster. She also encouraged all squadrons to get children involved in the youth poster contest so posters could be judged and winners sent to the national meeting. She also announced that interviews would be held immediately following the meeting for the Bridge Officers for 2019-2020.

**Education Officer Mark Dahlmann** congratulated the squadrons for having the largest percentage increase in number of individuals passing ABC in all of USPS. Facts from the 2017-18 ABC Statistics Report were listed in the Dock 29.

A special thanks go out to Toledo for 2 courses offered in 2017 and 5 this year. The number of those passing increased 192% and one of their classes had 53 students passing the exam. Congratulations to SEO Lt/C Chris Hoover and his team!

Mark also announced that a new format and application for the Charles F. Chapman Award for Excellence in Teaching was recently released. For more information, click on the link [Chapman Award Information](#) or go to the Education Department page on the USPS website.

### **District Executive Officer – D/Lt/C Felicia Evans, AP**

The North American In-Water Boat Show is scheduled for August 23-26 at Cedar Point. Working times will be similar to last year. Each squadron commander will be receiving a volunteer sign-up sheet. The Boating Skills Virtual Trainer will be in our booth. We will also have a new table display featuring America's Boating Club and listing the home base for each of our squadrons.

**If you have any questions or comments please see or contact D/Lt Ron Krock, SN at [jp709rj@bex.net](mailto:jp709rj@bex.net) or 419-433-1111.**

### **District Administrative Officer – D/Lt/C Jason Snook, SN-CN**

Jason stated that since he will be moving up the chairs on the Bridge, he has been working with P/R/C Richard Manter who is now the District Treasurer to make sure the transition goes smoothly. If anyone has any questions or concerns regarding the Administrative Department, please contact him at [jjsnook1@yahoo.com](mailto:jjsnook1@yahoo.com).

### **District Secretary – Sharon Manter, AP**

As editor for the district newsletters it is my concern how we handle sending newsletters to members without emails. There are approximately 100 of them. We don't have enough to use a bulk mail and do we continue to send them first class mail. There was discussion on the matter but nothing was determined.

### **District Treasurer – Richard Manter, AP**

The bills have been paid and the treasury is solvent.

## **Commander Reports**

**Columbus** - The ABC class was very successful with nineteen students and new members. We had a successful vessel safety check at the Alum Creek Marina.

We have several events planned and can be found on our website or in the Galley Gossip.

**Findlay** - Highlights of our year, so far, are the tour of the Ottawa National Wildlife Refuge in May.

Also in May we met with the Lima Squadron for a dinner meeting and listened to Jim Hoorman with the U S Dept. of Agriculture who spoke on Lake Erie algae blooms, the health of the lake, what causes the blooms and what is being done to prevent it.

In April we again met with the Lima Squadron for a wine tasting at Feasel's Garden Center in Findlay and had a fun evening together.

**Fort Wayne** - Reported on our upcoming Fall Conference which we will host in Fort Wayne.

**Lima** - We had an ABC class in Celina in late March with twelve people passing the test. Also, we had two vessel exams in Celina and two at Indian Lake for the kickoff of Safe Boating Week. Our SEO, P/C Tom Schmersal is pearheading an on-the-water training later this summer. We have other events planned. Please check the roster or contact Tom or myself if you are interested in joining with us.

**Port Clinton** – Our squadron started this year honoring a 50 year member and had a great ABC course with the largest class in several years. One of our goals was to have a no fatality 2018 boating season in Western Lake Erie. Sadly, this won't happen as a local perished without a life jacket succumbing to severely cold water at the mouth of Cold Creek. Could America's Boating Course have prevented this loss? He encouraged everyone to invite those we meet out on the waterways to learn a safer way to enjoy the water and be prepared for any emergencies.

**Sandusky** - We had two ABC courses with a total of 14 passing the exam and we have four new members as a result. Thanks to our ABC coordinator P/D/C Jack Runner and his excellent crew. Our SEO, Jim Platte announced that we will be offering a Weather course this fall.

We have had a full year, so far, of events starting with our Change of Watch in February. A big thanks to Felicia Evans for “filling in” for D/C Dan Mullane who was attending the National Conference in Orlando. She did a great job!

We start our monthly events with any announcements for members and then our fellowship and fun together.

We will continue with our events into the summer with our annual Sandusky/Port Clinton joint rendezvous and steak fry at the Huron Boat Basin July 6-8. The next weekend, July 13-15, is the District 29 Rendezvous and Summer Council meeting at Sandusky Yacht Club. It is also the weekend that at least six tall ships will be visiting for the Sandusky Bicentennial Celebration. It is possible that one or more of the ships will be at the yacht club. Contact the SYC Dockmaster to reserve a dock as soon as possible. Docks will fill up fast.

**Toledo** – My year started out with the Change of Watch. Our squadron was involved and supported the Watch beyond my expectations.

I had the opportunity to attend Columbus Squadron’s Ice Breaker Rendezvous in Sandusky. The USCG CO of the Marblehead Station was the featured speaker. She is the first female CO there and filled our thoughts about boating. One major issue presented was many individuals needlessly put other individuals’ lives at risk. Charter fishermen are found to have many violations from life jackets, fire extinguishers, flares and licensures. Let us try to honor “America’s Boating Club” mission to educate. We know they do not feel the need until tragedy hits.

**WINTER COUNCIL 2019**

**SQUADRON DELEGATES**

**SQUADRON** \_\_\_\_\_

**COMMANDER** \_\_\_\_\_

Each Squadron is entitled to one Delegate, a Delegate-at-Large and one alternate for the 2019 Winter Council. Please inform your delegates that they still must confirm their registration the morning of the Winter Council Meeting with the registrar.

1. Commander (or replacement) \_\_\_\_\_
2. Delegate-at-Large \_\_\_\_\_
3. Alternate \_\_\_\_\_

**District By-Laws Article III, Section 3.01**

The Council shall be composed of the District Commander, the District Lieutenant Commanders, the immediate Past District Commander and the Chairmen of the General Committees, the Squadron Commanders and a Council Delegate-at-Large for each Squadron. They shall be the voting members of Council.

**Luncheon reservations must also be made to Richard Manter, AP. Please see contact information in the Call to the Council. Payment of \$17.00 can be made at the Winter Council Meeting.**
